

MILITARY TECHNOLOGY BY METAL CLADDING INC

Over 50 years of performance history. Since 1943

MIL Spec Coatings Applicator and Composite Component Manufacturer for the Military and Prime Contractors- General Dynamics and TACOM

CAGE CODE: 43CJ7

DUNS: 00-210-4010

ITAR REGISTERED

DCAA COMPLIANT

NAICS CODES: 332812, 326199, FSC:93, PSC:9390, 333413, 336992, 428830

Coating Capabilities:

- Electro Coating per MIL-P-53084, Cleaning per TT-C-490
- CARC Coating per MIL-DTL-53072
- Conductive/Insulating Coatings
- Thermal Spray
- Fluoropolymers
- Powder Coating
- Camouflage using Digital Imaging Technology
- Pad Printing
- EMI/RFI Shielding
- Dip/Spin Bulk Processing, Fasteners & Small Parts
- Heat Exchangers, Condenser Coils, Tanks, HVAC

Composite Capabilities:

- Hand Layup, Closed Molding, Compression and Injection Molding
- Manufacturer of Ballistic Components to meet most threat levels
- Custom Engineered Light Weight Structural Components

Other Capabilities:

- Sub Assembly of Components
- Kitting
- Product Distribution
- Design Engineering
- Supply Chain Management
